

12 July 2006

Gentlemen:

I reside on the St. Lawrence River (USA side) in the Town of Louisville, St. Lawrence County, New York State.

I am a boater and use our 1972 Boston Whaler all summer & into October. Every year the river flows in Sept & August so that our boat launch has to be moved to get ours in the river.

I believe the current Lake Ontario St. Lawrence River regulation plan (1958-0) should be replaced with proposed Plan B. The latter plan is both boater & environmentally friendly.

Sincerely,
Francis C. Lavigne
