Washington, DC 20440

July 14, 2006

RECEIVED-IJC
INT'L JOINT COMMISSION
2006 JUL 26 A 9 54

Dear Commissioner Schornack:

Regarding: Proposed changes in Lake Ontario water level controls.

Data from: "Options for Managing Lake Ontario and St. Lawrence River Water Levels and Flows"

Table B, page 60
Environmental Performance Indicator Results

	<u>Plan A+</u>	<u>Plan B+</u>	<u>Plan D+</u>
Overall Environmental Index	1.06	1.35	1.10

Table C-5, page 218
Environmental Results (Historical) for Interest and Reference Plans

	<u>1958 - D</u>
Overall Environmental Index	2.44

Given the above figures from the Study Board's own report, how can a logical argument be made that the three proposed plans are an improvement over 1958 - D?

I urge the IJC Commissioners to reject the proposed plans and conduct further investigation.

Sincerely,

Ann M. Hayslip, President
SOS (Save Our Sodus)

International Joint Commission
