RECEIVED

INTERNATIONAL JOINT COMMISSION

JUL 21 10 A 2 38

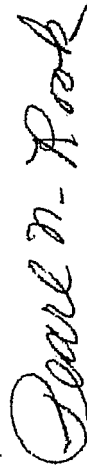

Dennis L. Schornack, Chairman
International Joint Commission
U.S. Section
1250 23rd Street, N.W., Suite 100
Washington, DC 20440

Dear Mr. Schornack,

As a summer resident on the Barrier Bar between Lake Ontario and Sodus Bay for 80 years, I have been aware of the caprice of the lake levels for 78 of those years,

After reading the report of the Study Board, (Ripples, PIAC), I scanned the 105 pages on the subject matter and options, and studied the grafts comparing plans A+, B+, D+, and E. I concluded that the 1958DD plan with variations is still the best choice.

Sincerely,

Mrs. Douglas L. Rook
