Re: Proposed Plans for Ontario Lake Levels

Dear Ms. Kreusch:

I am writing on behalf of the members of the Crescent Beach Association. Our Association represents the homeowners along the sandbar between Lake Bluff in the Town of Huron and Charles Point in the Town of Sodus. This sandbar is the barrier, which separates and protects the shoreline and islands in Sodus Bay. Without this sandbar, there would be no Sodus Bay.

We appreciate the hours and hours of hard work the Study Committee has put into the formulation of Plans A, B, and D to control the water levels of Lake Ontario. Our Association has carefully reviewed each of these plans and has found none of them to be acceptable. We believe our interests would best be served by continuing to operate under the current guidelines of 1958 DD.

We respectfully request that the status quo be maintained.

Sincerely,

Joseph S. Corsica, Jr., Chairperson
Ontario Lake Water Level Committee
Crescent Beach Association
