

**B&D Small Engines Ltd.**  
Cornwall, Ont.

International Joint Commission  
A.T.T. Murray Clamen

We live between Morrisburg & Ingonis  
in the T-lago inlet. This year the  
water level has been very high so high  
that we cannot go through the culvert  
under Sabershire dam with our boat. It has  
been a month & a half that we have not  
used our boat because of this. Last year  
was as bad but this year is worse.  
Our business is in Cornwall and the  
water level here is low. Customers are  
coming in & complaining about water being  
too low and hitting bottom with their  
boats. I wish the water level could  
be controlled better so that both districts  
could enjoy their boats & waters a lot  
more.

Thank you.

Robert Beaudry
