Subject: FW: Support of Plan B+

Sirs,

May I suggest that the e-mail address <commission@ottawa.ijc.org> be re-homed to a current employee of the IJC? The following e-mail message elicited a response from Paula Fedeski-Koundakjian stating she was no longer with the IJC. This is a critical time period for people wanting to register their support of a given plan with the IJC and hardly the time to make it difficult for them to do so, not to mention your system security considerations as well.

Subject: Support of Plan B+

Sirs,

It is long past time to replace Plan 1958DD with one that is far more equitable for all interest groups and better for the environment. I believe that alternative is Plan B+. I also believe that it is very important that a more adaptive and proactive management plan should be implemented, similar to the one suggested by the U.S. National Academy of Science and the Royal Society of Canada in their published report "Review of the Lake Ontario - St. Lawrence River Studies".

Thank You
