Sirs -

I do not understand what "contact information" I should provide,

I am a resident of the southern shore of Lake Ontario + have been since 1951. I will be 91 on Oct 10 /06.

Soil erosion has been unremitting over the years. + flooding in the 50's + 70's severe. I feel secure only when the lake level is 245 or below. The backlash of hurricanes are dreaded.

Please see other side - I couldn't say it better.

Thank you for reading this -
Shirley J. Conway
