Ottawa, ON,

Minister of Environment, John Baird, House of Commons, Ottawa ON,

Larry Miller M P,

Owen Sound ON,

Dear Sir

Please be advised that I am not in agreement with a 5 year study by the I J C to study lake levels. Everyone knows that lake levels have dropped dramatically over the last few years. Many people believe that a major contributing factor to this decrease in our water is the drain hole in the St Clair River.

I WANT ACTION NOW TO CORRECT THIS DRAIN HOLE! PLUG IT UP AND THEN STUDY THE LAKE LEVELS. IN 5 YEARS A STUDY MIGHT NOT BE NECESSARY, THE WATER WILL BE GONE.

Sincerely:

Signature: J. Ford
