Mr. Beracqua:

I am writing in regards to the water regulations on Lake Ontario and the St. Lawrence River. I have lived in northern New York my entire life and have spent a great deal of time on both bodies of water. I want my grandchildren to be able to enjoy this water as much as I have, and I fear that with the current pollution and destruction of the areas, this will not be possible. Please adopt a firm deadline to implement Plan B+ and protect our water while there is still time. As a taxpayer and educator I realize the importance of this plan to the environment and future generations.

Thank you,
