RECEIVED-IJC  
INT'L JOINT COMMISSION  
2008 MAY 30 P 12: 13

Mr. Frank Bevacqua  
Public Information Officer  
International Joint Commission  
U.S. Section  
2401 Pennsylvania Avenue NW  
Fourth Floor  
Washington, D.C. 20440

May 21, 2008

Mr. Bevacqua,

As residents of Northern New York, we are attracted to the wonderful natural resources and wildlife bountiful in this area. Center to the natural atmosphere and landscape are Lake Ontario and the St. Lawrence River, along with so many other lakes and rivers throughout this area. Our waterways are critical to not only our personal enjoyment, but to the economy and our personal livelihoods.

We urge you and the International Joint Commission to protect the Upstate New York economy and environment by adopting a firm deadline to implement Plan B+.

Effective water management is a necessary measure that must be addressed in this area now.

Thank you for your support and attention.

Respectfully,

*Jake Griggs, age 10*
