Fourth Floor
Washington, DC 20440

Dear Mr. Bevacqua,

I am privileged to live in a wonderful community directly on Lake Ontario. I am concerned about anything which threatens this gorgeous lake. Lake Ontario has for too long suffered losses which have adversely impacted fish species and nesting water birds. I urge you to adopt a firm deadline to implement Plan B+. It will create a healthier environment and at the same time help the users of the Oswego River and Lake Ontario.

Sincerely,
