Dear Secretary Rice:

As an avid fisherman, who has watched the water level of Lake Ontario steadily decline over the past several years, I strongly urge you to set a firm date for the implementation of Plan B+.

Maybe I'm a little selfish, maybe having lived in a part of the country where we once had pristine waters and an abundance of fish we now enjoy garbage laden shorelines and the smell of rotting walleye. Gone the days when we could enjoy a perch dinner merely by putting a line in the water for an hour. Now you dare not eat any species for fear of the toxins they carry.

Again let me urge you as strongly as I can to set a firm date for the implementation of Plan B+. I would appreciate a reply.

Respectfully yours,

James R. Wilson
