2401 Pennsylvania Avenue, NW
Fourth Floor
Washington, DC 20440

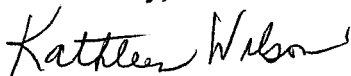

Dear Mr. Bevacqua:

As a life long resident of this area and one who has always enjoyed boating on Lake Ontario I must finally write und urge you to set a firm date for the implementation of Plan B+.

On a recent outing all we could see in the Black River at Dexter, NY were dead walleye all up and down the shore. Please, let's begin to put an end to the destruction of our waterways, not to mention the economy in our part of this great country where sport fishing is a vital part our livelihood.

Again let me urge you to set a firm date for the begging of Plan B+ and to please notify me of the same.

Yours truly,

Kathleen Wilson
