Ms. Frank Borsogna
 Public Information Officer
 International Joint Commission
 U.S. Section
 2401 Pennsylvania Avenue NW
 Washington, DC 20440

Dear Mr. Borsogna,

I am in support of Plan B+ for a balanced water plan for Lake Ontario and the St. Lawrence River.

An environmentally stable plan is required in order to balance commercial navigation, recreational boating and hydro power interests. Unnatural water regulations hinder coastal diversity. Plan B+ goals constructed with each forest.

Sincerely,
 James Crowley
