Washington, DC 20440

Dear Mr. Bevacqua,

I am writing this letter so my voice will be heard in support of the **Plan B+**, which as you know is a more ecologically friendly, international water level management plan for Lake Ontario and the St. Lawrence River. Furthermore, I'm in support of adopting a firm deadline in order to implement this plan. In doing so we can begin to preserve the wild life in and around the Lake, as well as for our fisherman and recreational users.

Thank you for your Time regarding this matter.

Sincerely

Lynn Little

Penfield, NY
