Dear Mr. Bevacqua:

We urge you to support the Plan B+ Water-Level Management Plan for Lake Ontario and the St. Lawrence River.

The Plan would benefit all interests, as well as benefitting sound eco-systems.

It would be nice to have clean water in Lake Ontario. Recreational swimming would be more available. Clean water would positively affect wildlife habitations. Clean water would positively affect the local economies.

The Plan B+ Water-Level Management Plan for Lake Ontario and the St. Lawrence River is a viable, strong plan as it stands.

Implementing this Plan as soon as possible would be most desirable, since we have waited so long for viable action.

Please be so kind as to send a reply to us on the status of action on the Plan B+.

Thank you.

Sincerely,

Kathleen Malinak

Edward Malinak
