Dear Mr. Bevacqua:

I urge you to protect the Upstate New York economy and environment by adopting a firm deadline to implement Plan B+.

It is very important that the St. Lawrence River and Lake Ontario be cleaned up so that us citizens can enjoy the use of these waterways through, fishing, swimming, and boating in an ecologically-friendly manner.

The present conditions of these waterways is appalling and very hazardous to our health. It is unfortunate that we have the privilege of living on a Great Lake and cannot even enjoy it due to its present condition.

Please, I urge you to adopt a firm deadline now.

Thank you,

Lisa Arnone
