U.S. Section
2401 Pennsylvania Avenue, NW
Fourth Floor
Washington, DC 20440

Dear Mr. Bevacqua,

We have a great opportunity to improve Lake Ontario and the St. Lawrence River and I need your help by supporting Plan B+. For years the ecosystem has suffered from decades of artificially controlled water levels. Plan B+ provides more natural water level management and will benefit our fish and wildlife which are important not only to me, but to future generations.

PLEASE consider implementing Plan B+ by adopting a firm deadline to support a health Lake Ontario and St. Lawrence River.

Your thoughts on this subject are valuable to me. Please respond to my concerns in writing and thank you for your time.

Gee Richards

Rochester, Ny
