

Wendy BADEAUX

I live at Waterstown NY.  
I have been a resident here for the past  
9 yrs coming here from Canada. LAKE  
Ontario has been a place that my family  
has enjoyed for many years. We camp and  
fish there but in the recent years the fish  
we have been catching we throw back  
because of the levels of pollution in the  
lake so we don't eat the fish. I agree  
that something needs to be done about  
the lakes slowly decline.
