INT'L JOINT COMMISSION

2008 MAY 30 P 12: 15

Dear Ms. Rice & Mr. Bevacqua,

I have just heard about the B+ Plan to create a sustainable ecosystem in Lake Ontario and the St. Lawrence River. I support the plan because I am concerned about the local fish and birds. We have had significant losses to our wetlands here in northern New York and it is adversely affecting the nesting grounds of many of our water birds. I am writing to ask that you please support a healthy Lake Ontario and St. Lawrence River ecosystem by implementing a deadline to the B+ Plan. Thank you!

Sincerely,  
Melissa Sievers
