

Cristen Piehl

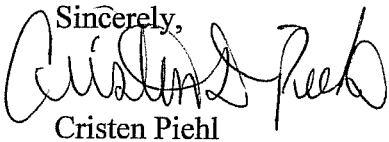

Watertown, NY

Dear Frank Bevacqua,

As a citizen of Northern New York, a great environmental concern, is our beloved Lake Ontario and St. Lawrence River. Something must be done to control the hazardous pollution and desecration of wildlife in these areas.

A firm deadline should be adopted to implement **Plan B+**, which will support a better and healthier environment for fishermen, recreational boaters, hydropower, etc....

Sincerely,

Cristen Piehl
