

June 2, 2008

Dear Mr. Bevacqua,

I am urging you to support a healthy Lake Ontario and St. Lawrence ecosystem by implementing Plan B+, developed under the direction of the IJC.

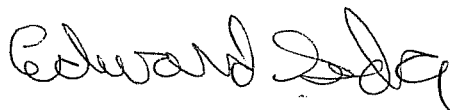

A weaker plan has been proposed, but lacks the sound environmental benefits covered by Plan B+.

A firm deadline should be set in implementing Plan B+, these great bodies of water have been damaged enough by pollution and artificially controlled water levels - every passing day matters.

Protecting this great lake and river is important because, in addition to enjoying the beauty and benefits of Lake Ontario, the conservation of the environment and the protection of wildlife is very important to me and my family.

I ask that you support and implement Plan B+ in a timely manner.

Thank you,

Edward Sedor
