Dear Sir,

I am writing to you to please adopt a firm deadline to implement Plan B+. It is essential for Lake Ontario and the St. Lawrence River. The plan provides a more natural water level which is better for the environment. My family and I vacation in the Thousand Islands every summer. We love the beauty, peacefulness, and serenity of the St. Lawrence River. It would be a shame not to endorse a plan that would enhance the beauty of this part of New York State, by bringing back more of the natural species of fish and water fowl for all to enjoy on either side of the water.

Sincerely,

Mariangela K. Capozzi Mariangela Capozzi
