Dear Sir;

The Great Lakes and the St. Lawrence River are very important to my wife, myself and our families including seven grandchildren who live here in Rochester and Buffalo. We are asking you to protect the upstate N.Y. economy and its environment by adopting a firm deadline to implement Plan B+. A strong and balanced waterlevel management plan is vitally important not only to the environment but also to our economy, both locally and nationally.

Please respond to our concerns in writing - Thank You.

Very truly yours,

Herbert & Julia Majors

U
Fairport, N.Y.
