

6-3-08

Dear Frank Benacqua,

RECEIVED IJC

INT'L JOINT COMMISSION  
2008 JUN 23 A 9:21

If you have never been to upstate NY, I challenge you to come here and see the beauty that the water in this area provide. The waters need to be protected. Tell

The IJC and the US Department of State to adopt a firm deadline

to implement Plan B+. Plan B+

will create a healthier

environment and benefit a majority of the users of the lake + rivers,

including fishermen, recreational boaters, hydropower, and municipal water users.

Please visit the area!

Lois A. Michalko
