Re: Restore Lake Ontario and the St. Lawrence River

This letter is written to urge the adoption of a firm deadline to implement Plan B+ to protect Upstate New York's economy and the environment.

Lake Ontario is a great asset linking the US and Canada that needs to be protected. This lake is in need of protection due to environmental damage being done with commercial progress.

Understandably, progress is good, but protecting our natural environment is also. Living near Lake Ontario, it is a body of water that we take for granted and I would appreciate your support to implement the B+ Plan for a healthy Lake Ontario and St Lawrence River ecosystem.
