To Whom it May Concern,

I am writing to urge you to support a healthy Lake Ontario and St Lawrence River ecosystem by implementing the B+ Plan. Please adopt a firm deadline for the implementation of these crucial plans.

Lake Ontario and the St Lawrence River ecosystems are important to all who live in this unique area as well as those who benefit from a healthy environment everywhere. Lake Ontario not only provides beauty, recreation and commerce but supports many habitats for wildlife. The area is also crucial to hydropower, the fishing industry, tourism, and municipal water users.

Ignoring these issues is detrimental to everyone. Please respond to our concerns in a timely manner explaining the action that will be taken.

Sincerely,

Maura Caughey

Oswego, NY
