Dear Mr Frank Bevacqua,

I am writing this letter to urge you to help protect the Upstate New York economy and environment by adopting a firm deadline to implement Plan B+. As an expectant mother it is important to me to begin to improve the environmental conditions of our local lakes and rivers as soon as possible so that they may continue to be enjoyed by future generations. I also firmly believe that with the rising costs of energy in this nation, any action we can take towards preserving and utilizing natural sources of energy, such as hydropower, is crucial. Please help to restore Lake Ontario and the St. Lawrence River by supporting Plan B+.

Sincerely,

Elizabeth Unterborn
