

to Frank Belsquis  
Public Information Officer

Me + my husband as concerned Citizens  
are extremely concerned regarding a safe,  
healthy + vibrant Lake Ontario. We live  
in Rochester, NY where we have the lake  
right near us. We need a deadline  
to commitment from govt regarding the B+  
plan to ensure we keep our lake intact.  
It's important for the future + as time  
goes on the lake as we know it will  
not be viable. IT already is at a  
bad state.

SO Please Support our Lake Ontario to  
keep it healthy with this implemented  
ecosystem — B+ plan
