Dear Public Information Officer Frank Bevacqua,

I have been a New York resident all of my life. I am very interested in improving the quality of water in our great lakes. I have two young children who already express worry and concern about the environment (at the ages of 9yrs and 11yrs). We occasionally visit lake Ontario and have noticed an increased number of occasions where there is a strong unpleasant odor surrounding the lake and pier. We yearly camp in the 1,000 Island area and would like to see this area well cared for. I am writing to urge Secretary Rice and the IJC to protect the Upstate New York economy and environment by adopting a firm deadline to implement Plan B+. I am also interested to hear your views on the plan.

Respectfully,

Sheri Guarino

Fairport, NY
