

Dear Frank Bevacqua,

I am writing to ask that you adopt a firm deadline to implement Plan B+. Plan B+ will create a healthier environment for the many plants and animals living in or near Lake Ontario and the Saint Lawrence River. As a family, we enjoy taking part in many activities along Lake Ontario. We would love to see it thrive for years to come, it seems to me that Plan B+ would help this happen. Please support a deadline to implement the B+ Plan. Thank-you.
