Washington, DC. 20440

Dear Sir:

As a resident of the great lakes area, our family is concerned about the condition of the water and the future condition of Lake Ontario and St. Lawrence River ecosystem in particular. I would like to urge you to implement the B+ plan proposed by the IJC, in a timely fashion. Please protect our childrens future, by taking action now. This plan should be in force as soon as possible, to avoid more damage to an already fragile ecosystem.

Sincerely,

Denise Proctor
Fairport, NY
