Dear Sir:

I am writing to you today concerning the future of Lake Ontario and St. Lawrence River. As a resident of Fairport. I would like you to support Plan B+. Plan B+ is an environmentally sound solution to help keep this wonderful resource available for many future generations to enjoy, including my own daughter. A firm deadline is needed to implement this plan. We can not continue to put off these important decisions. Things are changing and affecting this area every day. I watch my little daughter growing and wonder what kind of environment and state of affairs is she and the other children in her generation going to inherit from me. I would like her to grow up enjoying New York State and all it has to offer so that she too can raise a family here and have a successful future. Plan B+ will create a healthier environment and benefit a majority of the users of the lake and river, including fishermen, recreational boaters, hydropower, and municipal water users. I believe that this plan is the most well balanced solution to the issues we face as keepers of this wonderful resource. I hope you consider Plan B+ and putting forth a firm deadline so my daughter and future generations can continue to enjoy all the benefits of Lake Ontario and the St. Lawrence River. I look forward to hearing from you regarding this issue.

Sincerely,

Alexa Schwartzbeck

Fairport, NY
