June 16, 2008

Frank Bevacqua
Public Information Officer
International Joint Commission
U.S. Section
2401 Pennsylvania Avenue, NW
Fourth Floor
Washington, DC 20440

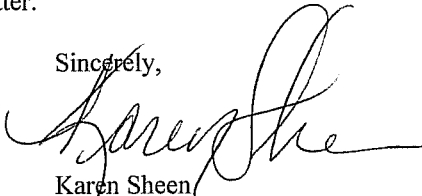

Mr. Bevacqua:

There has been a lot of discussion regarding the environment over the past several years and as a resident that benefits from Lake Ontario and the St. Lawrence River I am in support of Plan B+ and would ask you to do the same. The reduction of coastal wetland diversity, the impact on breeding and nesting success of many birds and fish, as well as water quality needs to be rectified.

Actions speak louder than words. Please adopt a firm deadline to implement Plan B+ and show you are as concerned about the environment and the citizens effected by the damage being caused over the past 50 years. Plan B+ will create a healthier environment and benefit a majority of the users of the lake and river, including fisherman, recreational boaters, hydropower, and municipal water users.

Thank you for your attention to this matter.

Sincerely,

Karen Sheen

Fairport, NY
