

June 23, 2008

Dear International Joint Commission,

I am a resident in Upstate New York. I am writing this letter to encourage you to consider Plan B+.

I believe it is important to keep our lakes and rivers healthy. Lake Ontario and the St. Lawrence River are significant to everyone in this area. They provide not only entertainment but beautiful wildlife. If our ecosystem is not sustained these things will change for us. It is important that my children not be deprived of the things I have enjoyed as a life long resident of Upstate New York.

I believe it is important to address this issue sooner rather than later. We have been blessed with this earth and it is our responsibility to preserve it. Please help by adopting a deadline to implement Plan B+. Thank you for your time.

Please respond to these concerns in writing to the address I am providing below. Thank you again.

Sincerely,

Jennifer Adams

Rochester, N.Y.
