

RECEIVED-IJC
STL JOINT COMMISSION

Dear Mr. Bevacqua,

I am writing in support to adopt a firm dealing to implement Plan B+! In the past, Lake Ontario has provided much enjoyment for me and my family. We enjoy swimming, boating, walking on the pier and just enjoying the beauty of the lake and its wildlife.

We have all managed to do great harm to our natural resources and it is time to work hard to turn the tide and make things better for our children, grandchildren and all the future generations before it gets too late.

Please do whatever you can to help support a healthy Lake Ontario and St. Lawrence River ecosystem and a deadline to implement the B+ Plan.

Thank you,

Laurie Fromm

Rochester, NY
