Dear Condoleeza Rice, and Frank Bevacqua,

A healthy Great Lake is important to me, and my family, because if we don't have clean purified water, we could get very sick. Also, if we keep the lakes and rivers clean, with no garbage or pollution in the water, our planet will be one step closer to a pollution free Earth. So please protect the Upstate New York economy and the environment, so we can have a better future for our planet Earth.

Sincerely,

  
Caleb Ling
