Dear Mr. Frank Bevacqua:

I am writing because of my concern for the health of Lake Ontario and the areas around it. For those that live close to or use the lake for recreation, we have seen firsthand the high variability associated with controlling the lake/river level. More stability will benefit those around the lake/river and also the wildlife of the area.

Please support the B+ plan and firm timeline for implementation as a means to bring stability to this system.

Sincerely,
