

To Frank Bevacqua:

Dear Mr Bevacqua, I am writing to you in concern of the B+ Plan and its importance to Upsate New York. Being a user of the St. Lawrence Seeway I have seen first hand the effects that artificially controlled waters over the years has done to river. Please help us adopt Plan B+ so that those of us who kayak, fish and boat this wonderful river can enjoy it for years to come.

Sincerely yours,

Norman Koss
Canandaigua New York
