Dear Mr. Bevacqua:

I am an 8th grade student at Canandaigua Middle School, and I care very much about the environment that we are handing to future generations. I would like the St. Lawrence Water Control Board of the International Joint Commission and the USDOS to adopt a firm deadline to implement Plan B+. Plan B will create a healthier environment and benefit a majority of the users of the lake and river, including fishermen, recreational boaters, hydropower and municipal water users.

Sincerely:

Gratia Taft
