

RECEIVED-IJC
INT'L JOINT COMMISSION

July 1, 2008
2008 JUL -8 A 10:37

Dear Sir:

As a resident (property owner) of theodus Bay area of New York State, I urge the Commission to honor its 50 year old commitment ^{to} the protection of the south shore of Lake Ontario. Since the 1950's, millions of dollars of private, commercial, and public investment has been made on an understanding that the lake levels would be controlled. Any new protocol that does not limit the high and low water extremes could have severe economic consequences to our region.

"I support Plan 2007 - Providing a four foot limit is included."

Respectively -

Donald + Dorothy Leeger
