

RECEIVED-IJC
INT'L JOINT COMMISSION
2008 JUL -2 P 4: 00

We support a healthy
Lake Ontario and St Lawrence
River. We would like to create
a healthier environment and
benefit wild life, boaters and
fisherman.

The natural high water
levels also benefits the
Braddock Bay area which is
a State Bird Observatory.
Millions of Birds migrate there
and are banded and monitored.
People come from a far to
view the birds by boat.
With the higher water it
would solve the dredging
problem there has been
through the Lake Ontario Channel
to Braddock Bay. This would
also create a safe Harbor
off Lake Ontario.

Thank you in advance
for caring about the Great Lakes
and for responding to this
letter.
