Dear Frank Bevacqua,

I am writing you today to urge you to adopt a firm deadline on the implementation of Plan B+. As a small business owner, an avid fly fisherwoman, and a mother I am aware of the benefits of the adaptation of Plan B+ to my local water systems and wetlands. I feel that Plan B+ will create a better environment for local fish, wildlife, and plant species. There has been far too much water and land loss due to pollution and overuse and the loss of animal and plant species is directly connected to this loss. Please act now to conserve these natural resources— Lake Ontario and the St. Lawrence River for many more generations to enjoy.

Sincerely,

Heidi M. Dodds
