Dear Mr. Bevacqua,
Please support the B+ Plan and create a sustainable ecosystem. We as Americans should do all we can to support a healthy environment that we can pass down to the future generations. It is imperative that we take action now to minimize what has been done. I ask you to adopt a FIRM DEADLINE to implement Plan B+, so our children can learn from our actions to respect and care for our environment. Plan B+ will help restore a healthy lake and river that can lead to a healthy economy in New York and Ontario

I urge you Ms. Rice to support this plan and continue the efforts that have been made. Please respond.

Thank you for your time.

Best,

Michael Kennedy *supporter of Plan B+*
