International Joint Comm

2401 Pennsylvania Ave NW

Washington DC 20440

As a residents of Sodus Bay area of New York State we urge the Commission to honor its 50 year commitment to the protection of the south shore of Lake Ontario.

Over the years we have seen erosion of our shores due to the Eisenhower locks construction - leaving family members with NO shore line on their properties. We are all still taxed on these properties but have less land - We do not need any further high lake levels - This could cause much harm to our shore lines.

We support Plan 2007 Providing a 4 foot limit is included.
