Today I was given specific information on the eco friendly international water level ~~plan~~ management plan - I am a resident of New York State, Rochester with Lake Ontario only 5 miles from me I dont think I need to discuss or point out why having a healthy lake is an important issue to myself and my children! This isnt an issue I should have to write a letter to advocate for! Please find it on your agenda to adopt a firm deadline to implement Plan B. Thank you for your time in this manner of common sense.
