

Dear Frank Bevacqua,

RECEIVED-IJC

THE JOINT COMMISSION

I am Olivia Vacchetto a concerned citizen about the regulations of the St. Lawrence River and all the Great Lakes including Lake Ontario. I am very supportive of the B+ plan because I live in a very close range to the lake and my supply comes from there as well as having friends and family with lakeside property and boats. I think everyone in the community as well as many others would like to see some water changes.

Since there is a lot of concern about Global Warming I think pollution needs to be kept down. Many species of animals do not have a healthy and proper environment to sustain their population. If the ecosystem in the lakes gets off balance it is very likely to corrupt and humans could feel the effect of this. I think that as a government the federal government needs to take action by funding the IJC and protect its citizens.

- Olivia Vacchetto
