Dear Mr. Bevacqua,

I am writing to you as a concerned United States citizen. It has come to my attention that our local waters are in desperate need of restoration in order to prolong the longevity of Lake Ontario and the St. Lawrence River. I am interested in supporting the plan entitled Plan B+, an ecologically-friendly, international water level management plan, in order to improve our waters. Not only will this plan contribute to keeping our environment healthy, but it will also be beneficial to our families and loved ones in the future. Clean water is healthy water, and it is clear to see that everyone will benefit from this, especially fishermen, recreational boaters, hydropower energy, as well as municipal water users. These two bodies of water are vital to Americans, as well as to the history of the United States of America. Please listen to the concerned citizens, and seriously consider adopting a firm deadline to implement plan B+. Thank you for your time.

Sincerely,

Jeanne Yacono

Rochester, NY 1
