RE: Adopt A Firm Deadline to Implement Plan B+

My wife & I have lived in Rochester since we were born & are very dissatisfied with the water that we drink. We have to use a Brita filter in order to drink it. As each day goes on the smell of chlorine gets worse. We would like you to implement Plan B+ in the future for the safety of not only us but to the safety of all the kids growing up in our environment. 

Could you please respond in writing to us what the future holds for all of us in New York State
