INTL JOINT COMMISSION

200 15 P 2:02

Frank Bevacqua  
Public Information Officer  
International Joint Commission  
US Section  
2401 Pennsylvania Avenue, NW  
Fourth Floor  
Washington, DC 20440

Dear Mr. Bevacqua,  
For too long Lake Ontario and St. Lawrence River ecosystem has suffered consistent losses of vital wetlands, which negatively affect many fish species and nesting waterbirds. Plan B+ would provide a more natural water level management to benefit fish and wildlife, ship navigation, and clear hydro-power production.

Please consider adopting a firm deadline to implement Plan B+ which will create a healthier environment and benefit a majority of users of the lake and river, including fishermen, recreational boaters, hydropower and municipal users.

Where there is water there is life.
